

Veterinary + Fertility Services

Veterinary Fertility Services is a specialist veterinary gynaecology, obstetrics and andrology service. Founded by Dr. Pete Irons, a registered specialist & Diplomate of the American College of Theriogenology.

Our philosophy is to assist breeders in realising the optimal breeding potential of their animals by providing high quality services using qualified staff and customised facilities and equipment.

Services

- Pre-mating examinations of males & females
- Determining optimal time for mating
- Pregnancy & pre-whelping examinations
- Infertility investigations
- Fresh & frozen semen artificial inseminations
- Semen freezing
- Obstetrics
- Advice on breeding management

Facilities

- Dedicated consulting room with laboratory facilities, dispensary and ultrasound
- Theatre with electronic patient monitoring
- Isoflurane inhalation anaesthesia for optimal safety during caesarian sections
- Radiology suite including ultrasound machine with high resolution probes
- Separate dog and cat accommodation areas
- Purpose-built outside runs for patients

Appointments

Appointments can be made on Monday, Wednesday and Friday afternoons until 6pm. Appointments at other times are possible in consultation with Dr. Irons.

Appointments may be made on www.vetfert.co.za, or telephonically. Completing and submitting the online appointment form will eliminate any paperwork when you arrive for your appointment. Payment is due at the time of rendering the service and can be made by cash, cheque or credit/debit card.
